EDUCATION

Bachelor of Technology in Computer Science and Engineering
Dr. A.P.J. Abdul Kalam Technical University, Lucknow, India

Sep, 2023 - Present

SKILLS

Frontend Development: HTML • CSS • JavaScript • React.js • Bootstrap • Tailwind CSS

Backend Development: Node.js • Express.js • Python • REST APIs

Database: MongoDB • MySQL

Tools & Platforms: Git • GitHub • VS Code

Authentication & Security: JWT Authentication • API Security

PROJECTS

Expense Tracker Web Application

- Built an expense tracker using React.js, HTML, and Tailwind CSS to manage finances.
- Implemented React hooks and JavaScript logic for balance calculation.
- Used Local Storage API to store and persist financial data in browser.
- Add category filtering and charts for visual monthly expense analysis.

Smart Weather Dashboard

- Built a dynamic weather web application using HTML, CSS, and JavaScript with API integration.
- Implemented real-time weather data fetching including temperature, humidity, and conditions.
- Added city search with auto-suggestions and dynamic weather-based UI background.

Currency Converter

- Developed a real-time currency converter using JavaScript and REST API.
- Integrated exchange rate API for accurate currency conversion.
- Implemented dropdown currency selection and error handling for invalid responses.

Smart Household Energy Advisor

- Developed a **Smart Household Energy Advisor** web application for analyzing electricity usage and predicting future energy bills using **HTML, CSS, JavaScript, and Data Analytics concepts**.
- Created personalized energy-saving recommendations with estimated rupee savings using **JavaScript, Data Analytics, and GitHub for project management**.
- Designed a responsive and user-friendly interface for household energy monitoring using **HTML5 and CSS3**.
